

**ALL SAINTS CHURCH
HAWSTEAD**

**CHURCHYARD
SURVEY 2013**

All Saints Church, Hawstead

Churchyard Survey completed June 2013

A plan of the Churchyard was started in 2010 by Mr Tony Hillman and Mrs Angela Rushen.

All visible gravestones were copied on to a plan and divided into five identifiable areas:

A; B; C & C1; D & D1; E

The Church Register from 1600 – 1900 could not be found in downloadable format in the Record Office and it would have taken a very long time to delve through all the records on microfilm.

A Monument Survey undertaken in 1926 was therefore used as the **pre 1900** point of reference. The other two Registers **1900-1926** and **1926 onwards** were used as the other points of reference to identify those burials where the inscriptions could be read.

There are many registered burials where no gravestones could be found, surprisingly from 1900 to about 1960. There seems to be no explanation for this other than the fact that the expense of a memorial stone was too great for the descendants and that there are some areas in the churchyard where no gravestones are to be found but where it is known that burials have taken place.

Cross reference can be made from each area plan to the list of burial spaces and then to whichever register they refer.
