

Note for Nowton Parish Council

I have sponsored a course "Suffolk Needs Met" which will be run by Suffolk Mind.

This is a Wellbeing Course and it is booked to take place at Gt Whelnetham School, on July 18th.

Time 6 -9.30 pm this may seem a long time but as it is part interactive it is surprising how the time goes.

I have received the course so has my wife Viv.

We both found it very enlightening and helpful.

If anyone is interested, I will be trying to get the numbers firmed up this week as this is ideally for up to 16 people.

West Suffolk Council has set up a rural task force that will report to Cabinet. The remit is wide ranging and not firmly established. I am actually on this task force but I do have reservations as they will be wanting results in September. My main point is August is usually a dead month with people away on holidays. I believe in the concept but not the timescales.

I have been taken off Development Control Committee and put on to Overview & Scrutiny Committee. I have been pushing for and asking questions about the housing allocations plus type and suitability for my residents. This will be one of the first items to be looked at.

Questions?
